

Native Air Air Methods

Air Methods was founded in 1980 and is based in Denver, Colorado. The company's air medical division provides emergency medical service to over 100,000 patients per year in the continental United States. Native Air and the San Juan Regional Medical Center are two divisions of Air Methods that primarily serve New Mexico. Air Methods primarily operates Pilatus PC-12 aircraft as well as a variety of helicopters.

Air Methods/Native Air Pilatus PC-12 N628MC at the Albuquerque International Sunport.

Air Methods/Native Air Pilatus PC-12 N642PC at the Ruidoso Sierra Blanca Regional Airport.

Air Methods/Native Air Pilatus PC-12 N671PC at the Carlsbad Cavern City Air Terminal.
